

My Personal Screen lock and Poweroff command

Here, for screen lock, we have to use

→ './myTask lock-screen' command

We can also set time 0 to 999 ~~for~~ locking the screen.

→ './myTask lock-screen 30'

For ~~pre~~ power off we have to use

→ './myTask Poweroff' command.

We can set time here -

→ './myTask Poweroff 60' → for poweroff after 60 min.

→ './myTask Poweroff 1:00' → for poweroff at 1:00 AM
(in 24h format)

To revoke screen lock, we have to use -

→ ~~./myTask~~ './cancel lock-c'

To revoke poweroff, we have to use

→ './cancel Poweroff-c'
